

INDUSTRIAL REGULATORS

WMR SERIES GAS DISTRIBUTION SYSTEM INLINE REGULATORS

The WMR Series Gas Distribution System Inline regulators are designed for final line pressure regulation on gas distribution systems that require large gas volumes. They are suitable for a variety of gases in either medical or industrial gas applications. The WMR Series regulators incorporate a balanced seat design and are constructed with Oxygen compatible materials.

NOTE: Maximum inlet pressure of 400 PSIG.

- Forged brass body resists corrosion
- Large seat and diaphragm areas provide high flow capacities
- Easy to read 2" gauge
- Two outlet gauge ports allow re-orientation
- One year warranty
